vitorog

**Our furniture
turns an empty
space into a
COMFORTABLE
HOME.**

01 Our story

From a little furniture store, which began our story in 1993, we have come a long way. Today, we are proud to present Vitorog, a company which has over 700 employees and furniture salons occupying an impressive 35.000 m² of showroom and selling space in major cities of Serbia.

Our production facilities, storage, and company management are located in Novi Sad, using 30.000 m² of production, storage and business space.

Our core idea and vision, from the very beginning, have been to create a versatile offer of furniture by enabling our customers to find furniture that expresses their individual style and completely satisfies their needs. We deeply believe that everyone deserves a comfortable, aesthetically appealing home, and we have provided that to our customers through our broad selection of products and special perks for purchases.

Our production takes place in five modern production facilities: serial production of panel furniture, custom-made furniture, upholstered furniture, furniture made from natural solid wood with veneering, and mattress and sleep equipment production. There are also three service facilities dealing with foam cutting, primary processing of natural solid wood as well as a furniture painting facility.

In our wide range of products, we offer furniture from other manufacturers too, domestic as well as foreign, with whom we are building long-lasting and successful partnerships. These companies are more than suppliers to us, we consider them our partners.

Just as we do for our own production, the furniture we acquire from our partners undergoes rigorous quality control. We monitor the reliability of each piece of furniture during its use by our customers and collaborate with our partners in further improving quality and reducing the possibility of complaints. By doing business in this way, Vitorog has ensured that it can guarantee for each piece of furniture in its selection, whether it is produced in our facilities or a part of our partners' offer.

We offer
QUALITY and
AFFORDABLE
furniture for every
space.

We would also like you to know that Vitorog has a dedicated team of experts who share a passion for creating comfortable and functional homes.

Our designers, carpenters, upholsterers, and quality experts work together to make sure that each piece of furniture is made with care and precision.

Since the Serbian market has become small for us, we have shifted our focus towards exports and we take pride in working on expanding our presence in foreign markets. We believe that our diverse range of products will find its place in the international market, allowing people outside the borders of Serbia to enjoy the true quality and distinctive style that Vitorog can offer.

By shopping with us, you can be completely confident that you have invested in the highest quality furniture for your money's worth, and that your home will radiate comfort and elegance on a completely different level.
